

Name: Addis Quiterio

Title of Lesson: Spectacle in action!

Grade Level: 9th grade Drama Class

Lesson Purpose/Rational/Essential Question: What are some of the characteristics of Greek Theater?

Prior Knowledge Required: Reading, Writing, also know what the 6 elements of Greek theatre are, especially Chorus and Spectacle.

Learning Standards -

HS Proficient TH:Cr1.1.I a. Apply basic research to construct ideas about the visual composition of a drama/theatre work

HS Proficient TH:Cr1.1.I c. Use script analysis to generate ideas about a character that is believable and authentic in a drama/theatre work

Objectives: Students will be able to identify 6 elements of Greek Theater by the end of class with 100% accuracy and will provide a completed worksheet of the 6 Greek elements found in the book, including a mask design.

Students will be able to utilize the 6 Greek theater elements in their assignment in class.

Teacher Materials/Preparation:

1. Script hand-outs
2. Highlighter
3. Character Element descriptors / Slides
4. pencil/pen
5. Worksheet
6. Template
7. Rubric

Student Materials:

What will the students need? List all materials. Nothing should be assumed to be included.

1. Pencils
2. Paper
3. Worksheet with rubric
4. Templates

Motivation and Anticipatory Set:

Activity/Method Title	Time	Description/Procedure
<i>Introduction/Anticipatory Set: Check In</i>	<i>5 minutes</i>	<i>Warm up - Emotion freeze</i> <i>I will have my students stand up. I will then yell out an emotion and will count down 3..2..1.. Freeze. They will then freeze into a statue and then show their emotion with their face. We will do this a few times and students will get to pick the emotion.</i>
<i>Transition: Now that we all warmed up, let's review the 6 elements of Greek theatre.</i>		

Procedure:

*Describe and, if needed, number the steps of an activity that will allow students to creatively use the new concepts and/or skills you will teach. The description of the instructional procedures should be thorough and follow a logical sequence. Clearly explain what the teacher will do and **what the students will do**. Make sure students understand the connection between the activity and the objectives/standards of the lesson. Do not assume anything and do not write this section in First Person. Use the format below. Note: Your lesson may include more or less than 4 activities, please adjust accordingly.*

Activity/Method Title	Time	Description/Procedure
<i>Introductory to lesson</i>	6 minutes	I will begin by giving them a mini review by asking them to name the 6 Greek Elements. What are the 6 elements of Greek Theatre? (answer: plot, character, thought, diction, melody, and spectacle.) Who found the 6 Greek Theatre elements? (Answer is Aristotle) A slideshow will be presented and this will be found in google classroom.

		I will then ask them “Why do you think these elements of Greek Theater are important in a play like Antigone?”
<i>Transition: Now that we reviewed, let's get our books out and flip to page 196!.</i>		
<i>Learning Activity/ Method #2:</i>	<i>Time: 10 mins .</i>	<i>We will read as a class page 196-203 of Antigone.</i>
<i>Transition: Now that we all reviewed the 6 Greek Theatre elements. I am going to pass out a worksheet. In the worksheet you will be asked to identify 5 Greek theatre elements.</i>		
<i>Learning Activity/ Method #3:</i>	<i>Time: 15</i> <i>They will spend 10 minutes looking for this information.</i> 5 Minutes End of 10 minutes	<i>A worksheet will be passed out. In this worksheet, students are asked to identify the 5 Greek theatre elements in the play “Antigone”. They will be asked to identify the plot, character, thought, diction, and melody, as well as explain how these elements help shape the script.. They will identify this with citations from the play. Once they complete the worksheet, for the 6th element Spectacle, they will be asked to create their mask.</i> <i>Halfway through these 10 minutes I will be checking around to ensure they are doing well. “How are we doing on the worksheet?”</i> <i>At the end of 10 minutes I will ask them how much more time they think they need.</i>
<i>Transition: Alright let's 5 more minutes and then we will wrap up our work.</i>		
<i>Learning Activity/Method #4</i>	<i>Time: 5</i>	<i>They will continue to work on their worksheet until the 5 minutes are up.</i>

Alright, please pass the worksheets up to me!

Closure:

How will you help students summarize the key points of the lesson to reinforce what they have learned? How will you help them use what they have learned?

<i>Activity/Method Title</i>	<i>Time</i>	<i>Description/Procedure</i>
<i>Learning Activity/ Method #4:</i>	<i>5</i>	<i>Exit slip: What element was hardest to find? Which element do you think has the biggest impact in Antigone and why?</i>

Assessment: (Formative)

How will you determine if the students mastered the objectives of the lesson?

My students will turn in the exit slip so that I can see if they mastered the elements or if it needs to be revised. They will also turn in the worksheet in which they name the 6 elements and cite with evidence. They will also design a mask and name what the element this assignment falls under.

Theorist

The theorist that best works with this lesson plan is Aristotle and his findings of the 6 Greek theatre elements. His findings aid the students in comprehending the script so that they build their knowledge.

Assignment/Homework: *Worksheet if incomplete*

Accommodations

For a student who is hard of hearing, I will add subtitles to the videos provided. I will also make sure that the slideshow is presented and that if necessary, I will give further information to the student.

For a visual individual, I will use descriptive language so that my student stays engaged in the material. If a student needs less screen time, I will decrease the amount of lecture time for the students.

For exceptional students, I could have the student(s) work with individualized studying or to also help their peers if their peers need assistance.

Plan B: If we are early on time, I will have them read the next few pages of Antigone. If we are short on time, we will wrap up and I will have them take the sheet home for homework if it's incomplete as well as the mask.
